

# Purpose

## Purpose

# Purpose

The app is a result of POC done by team to test their full-stack skills developed recently. This app demonstrates a model of shopping cart with some very basic features to help user submit a purchase order.

# Team

## Team

1. **Chandan Pandey** (Front End)
2. **Debottam Rakshit** (Front End)
3. **Sarvjit Rangra** (Back End)

# Technologies Used

## Technologies Used

### Front End

1. ReactJS/Redux
2. Bootstrap
3. HTML/CSS

### Back End

1. NodeJs/Express
2. MySql

# Demo

## Products Listing

This is homepage of the app which list products populated dynamically from backend. On this page user can add any product to the cart. User can also view total cart items added to his cart on top right of the page.
